## ***Complete report on Kandahar operation***

**4-08-2010**

Yesterday's successful operation was part of a broader operation Al-Fath, being carried out by Mujahideen of Islamiic Emirate of Afghanistan throughout the whole country. Alemarah website interviewed Mauli Muhammad Akram, the head of this operation and asked some questions regarding yesterday's events which are as follows:

**Alemara:** Could you give us some details about yesterday's successful operation.

**Mauli Muhammad Akram:** Yesterday morning, about 11:30 am, a Martydom seeking Mujahid blew his explosive-laden truck at the northern gate, close to the invaders learning facility, in which 150 US and Canadian soldiers were busy with military studies. Then two missiles were fired and hit 2 watchtowers, 20 meters away from the learning facility. After the way was cleared, 6 Martydom seeking Mujahideen carrying 2 RPG's, 4 heavy machineguns and each carrying 5 grenades, sharp knives and machetes, 7 rifle magazines and 8 rockets entered the learning facility and killed those soldiers who had not yet died from the initial explosions.

**Mauli Akram** added that the initial blast also destroyed a tower, containing computers and other electronic equipment.

**Alemara:** When and how did these 7 Mujahideen become martyrs?

**Mauli Muhammad Akram:** 1 Mujahid was martyred when he blew up his explosive-laden truck. 2 others blew their explosive belts and were martyred when we were praying Asr, late afternoon. 3 others were martyred early in the evening during Magrib prayer.

**Alemara:** Could you tell us some details about the destroyed helicopters.

**Mauli Muhammad Akram:** 50 meters behind the learning facility, 12 helicopters were stationed in a workshop, which were shot with RPG rounds containing petrol and are believed to be destroyed. Later that afternoon the US terrorist tried to fly a helicopter close to the workshop but came under RPG fire and was destroyed.

**Alemarah:** Could you tell us about enemy casualties

**Mauli Muhammad Akram:** Around 173 NATO terrorists were killed in yesterday's operation. This includes 150 invaders who came to the base in 3 buses a couple hours before the attack took place. 7 others died during the helicopter incident and 16 others were killed in explosions and clashes with the Mujahideen. I must add that in the clashes and explosions that took place throughout the day, a lot of other invaders also died and a large number of their resources were also destroyed.

**Alemara:** ISAF says that the tractor carrying explosives got stuck in the mud before reaching the base and the other Martydom seeking Mujahideen were gunned down while trying to reach the base. What do you say about these claims?

**Mauli Muhammad Akram:** Yes, the tractor incident happened a day before the operation, when it was sent on reconnaissance mission. ISAF are telling blatant lies and it has nothing to do with yesterday's operation.

**Alemara:** The world media is keeping quiet due to American pressure. Have the Mujahideen done any sound or video recordings of the operation?

**Mauli Muhammad Akram:** Yes, we have done some video recordings of the operation and it will be released at a suitable time.

**Alemara:** Thank you very much for sharing this information with our audience and the world
